Akustik Tiltfix Super T-60

90° adjustable fixing accessory for suspended ceilings beneath inclined structures. Mechanical fixing with threaded-rod height adjustment, compatible with CD 60/27 profiles.ent.

The **Akustik Tiltfix Super T-60** is a mechanical accessory designed to facilitate the **installation of suspended ceilings beneath inclined supporting structures**.

Used in combination with the **Akustik Tiltfix** system, it provides a **90° change in fixing orientation**, allowing the suspension system to be correctly adapted to the geometry of the supporting structure and the ceiling to be installed at the required level or inclination.

The system is designed to **clip directly onto CD 60/27 profiles**. Its mechanical fixing provides secure retention of the profile, while the **threaded rod allows precise height adjustment** during installation.

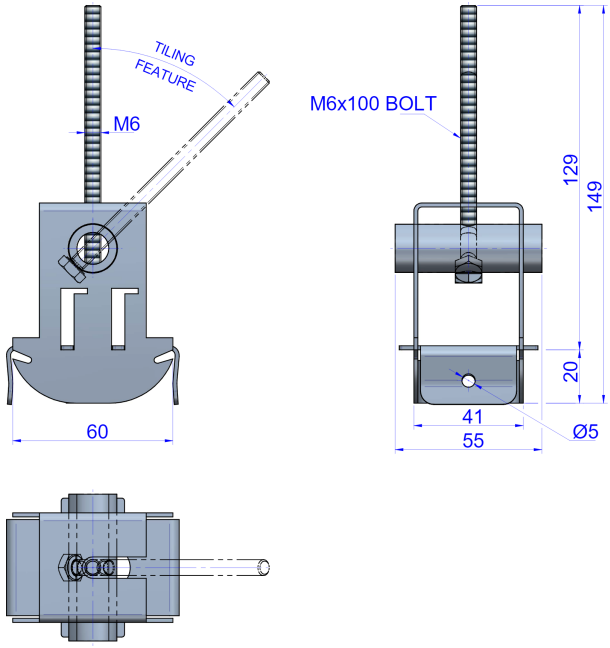

With no resilient element, the Akustik Tiltfix Super T-60 is a **mechanical fixing and adjustment accessory** designed to complement suspended ceiling systems where the geometry of the supporting structure requires angular adaptation.

Akustik Tiltfix Super T-60	23512

Advantages

Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.

Secure ceiling anchorage

With more than one fixing point to the overhead slab, it is particularly reliable for anchorages with low load-bearing capacity.
