

# Akustik T47 Safety

Acoustic hanger with automatic safety clip for 45–47 mm C-channel profiles. Fast, secure installation

The Akustik T47 Safety range is designed for the suspension of acoustic ceilings and machinery operating above 1,000 rpm. Every model incorporates the same high-performance elastomer element, specifically engineered to provide effective vibration isolation and long-term mechanical reliability.

The steel housing is designed to support loads of up to 650 kg and is protected with a corrosion-resistant zinc-plated finish. The integrated automatic safety clip enables fast, secure installation on 45–47 mm C-channel profiles.
