Akustik Super

Reinforced acoustic hanger for T-47 and T-60 ceiling profiles. Fast, secure installation with high traction resistance. Load range: 8–60 kg.

The Akustik Super range is designed for the suspension of acoustic ceilings and machinery operating above 1,000 rpm. Every model incorporates the same high-performance elastomer element, specifically engineered to provide effective vibration isolation and long-term mechanical reliability.

The reinforced steel housing is designed to support loads of up to 650 kg and is protected with a corrosion-resistant zinc-plated finish. Its clip-on design enables fast, secure installation on T-47 and T-60 (CD6027) ceiling profiles.

Advantages

Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.

Secure ceiling anchorage

With more than one fixing point to the overhead slab, it is particularly reliable for anchorages with low load-bearing capacity.

Excellent value for money

This mount delivers very high performance for its cost compared with other possible solutions.
