Akustik Super T-47 Fixing

Heavy-duty fixing for Dryliner profiles with Super Anchorage system, providing maximum safety and a certified tensile strength of 6 kN.

The **SUPER FIXING** accessories provide flexible installation of acoustic hangers using **Dryliner profiles**, allowing the hangers to be fixed to joists either vertically or from the side.

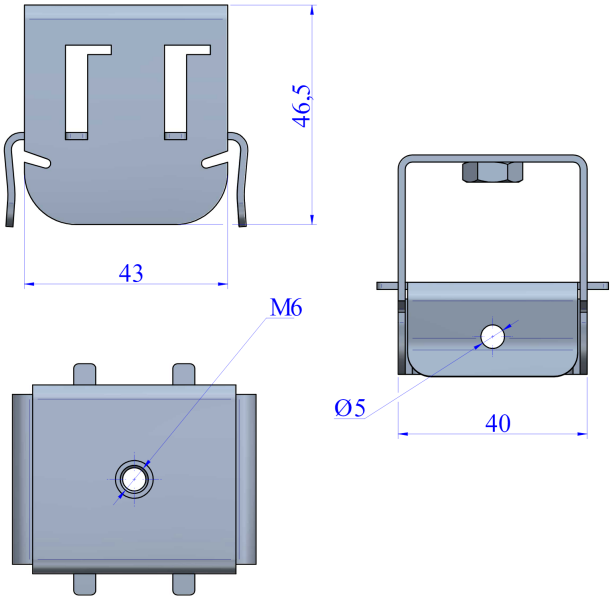

The **Super Fixing** accessory provides a secure connection by means of a **metal locking lever that grips the Dryliner profile when tightened**. This system provides **high tensile strength**, certified up to **6 kN**, ensuring a reliable fixing for demanding applications.

Technical characteristics

The resistance to traction forces have been measured by the independent technological institute TECNALIA, report # 28125-2 with resistance traction forces to 6kN.

The zinc plated anticorrosive treatment allows resistance to arduous corrosive environments.

Advantages

Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.

Secure ceiling anchorage

With more than one fixing point to the overhead slab, it is particularly reliable for anchorages with low load-bearing capacity.
