# Akustik Tiltfix

## Adjustable fastening accessory for installing Akustik acoustic hangers on sloped ceilings. Automatic vertical alignment and secure fixing.

The Tiltfix Fastening accessory provides a simple and secure solution for installing Akustik acoustic hangers on sloped ceilings and inclined surfaces. Its articulated design automatically aligns the hanger in the vertical position, ensuring correct installation and optimum vibration isolation.

The double fixing system provides high pull-out resistance and adapts to a wide range of installation conditions and load requirements.

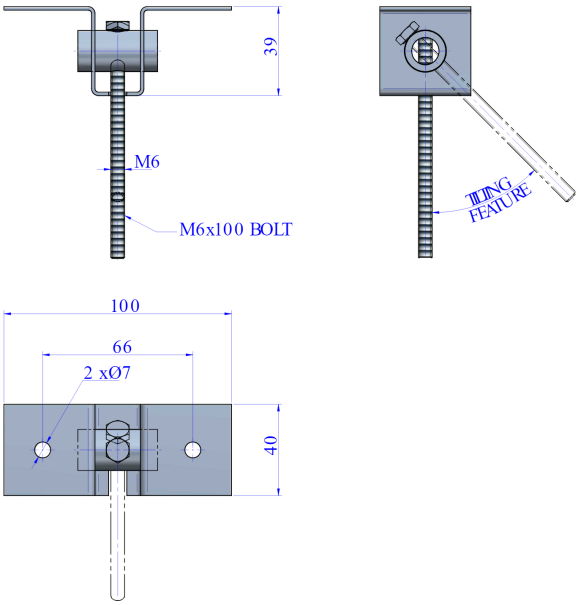

Manufactured from corrosion-resistant zinc-plated steel, Tiltfix Fastening is suitable for both indoor and outdoor applications.

# Advantages

### Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.

### Mount offering high stability

Suspensions built with this mount barely move, thanks to a geometry designed to control the movement of the suspended element.

### Secure ceiling anchorage

With more than one fixing point to the overhead slab, it is particularly reliable for anchorages with low load-bearing capacity.
