TSR Fixing Base

Metal fixing base for securing TSR + Sylomer® isolators to floors, partitions, or equipment. Slotted design allows flexible positioning during installation.

The **TSR Fixing Base** is designed to secure **TSR 70 × 70 isolators** to the supporting structure and prevent lateral displacement.

The slotted fixing point provides installation flexibility and allows the position of the isolator to be adjusted before final tightening. It is particularly useful on **uneven surfaces** or in applications where the TSR isolator requires positive mechanical restraint.

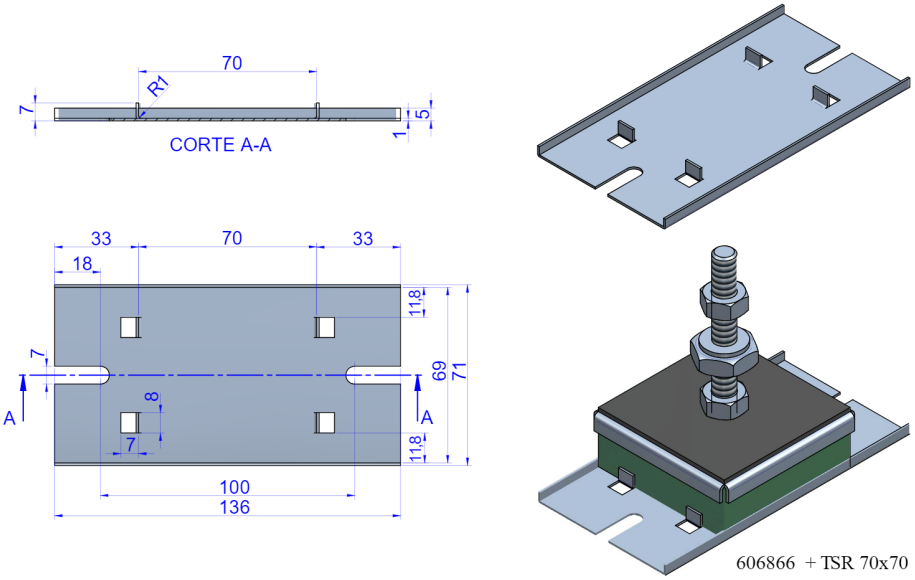
Drawings

TSR 70x70 fixation



Type	Code
TSR 70x70 fixation	606866

Advantages

Easy installation

This mount requires no major modifications to the structure for installation.

Mount offering high stability

Suspensions built with this mount barely move, thanks to a geometry designed to control the movement of the suspended element.
