Fixed Polyamide Levelling Feet

Fixed levelling foot with glass-fibre reinforced polyamide base and zinc-plated or stainless steel stem, providing a lightweight, durable and cost-effective support.

The **AMC-MECANOCAUCHO® Fixed Polyamide Levelling Feet** are designed to provide **stable and reliable support for machinery, equipment and light structures**.

The base is manufactured from **glass-fibre reinforced polyamide**, combining **low weight, mechanical strength and durability**. Depending on the configuration, the stem is available in **zinc-plated or stainless steel** to suit different operating environments.

The **fixed-stem design** provides a simple and robust option for applications where articulation of the foot is not required. It allows the **height of the equipment to be adjusted and levelled** whilst maintaining good stability.

Thanks to their simple and cost-effective design, these feet are particularly suitable for **light machinery, industrial equipment, conveyors, structures and other applications requiring stable levelling**.

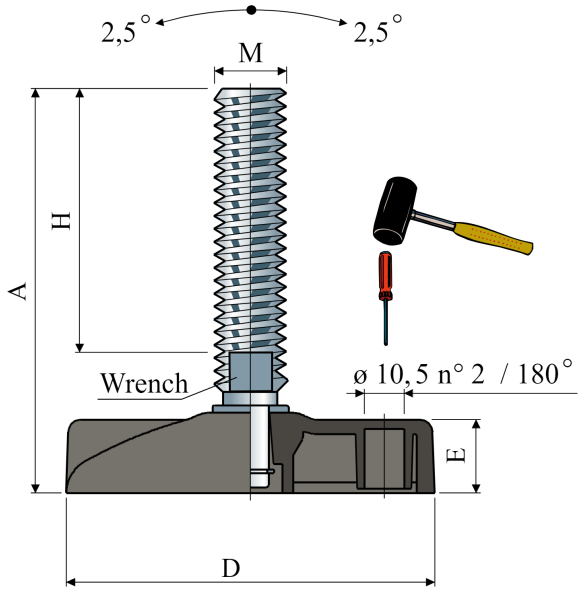
STEEL / STAINLESS STEEL



Type	Code	Max. Load(kg)	A(mm)	D(mm)	E(mm)	H(mm)	M	Weight(kg)
STEEL	159504	3300	159	102	20	119	M16x119	0.255
	159505	4500	156	124	24	107	M20x100	0.378
STAINLESS STEEL	159514	3300	159	102	20	119	M16x119	0.255
	159515	4500	156	124	24	107	M20x100	0.378

Advantages

Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.
