SCBR Washer

Metal safety washer for SCBR anti-vibration mounts, designed to distribute tightening loads, provide mechanical retention and offer high corrosion resistance.

The **AMC-MECANOCAUCHO® SCBR washer** is specifically designed to complete the installation of **SCBR anti-vibration mounts** and ensure an **even distribution of tightening loads**.

Its geometry provides correct support for the elastic element while allowing the **rubber deformation required for effective vibration isolation**. It also contributes to the **mechanical retention of the assembly** when the mount is subjected to tensile loads, shocks or high dynamic loads.

Manufactured from **steel with corrosion-resistant protection**, it provides excellent durability and is suitable for **mobile machinery, industrial vehicles, cabs and auxiliary equipment** subjected to vibration and demanding operating conditions.

The washer is an integral part of the **SCBR mounting system** and must be used with the corresponding mount and fixing dimensions.

Drawings

SCB 38 WASHER / SCB 42 WASHER / SCB 45 WASHER

Type	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)	Code	Weight(kg)
SCB 38 WASHER	38	12,5	3	611065	0.023
SCB 42 WASHER	54	12,5	3	611080	0.05
SCB 45 WASHER	54	12,5	3	611080	0,05

Advantages

Easy Installation

This mount requires minimal structural modifications, making installation quick and straightforward.

Mount offering high stability

Suspensions built with this mount barely move, thanks to a geometry designed to control the movement of the suspended element.
