

TF Washer

ZnNi-coated steel safety washer for TF anti-vibration mounts, designed to provide mechanical retention and limit movement under high dynamic loads.

The **AMC-MECANOCAUCHO® TF Washer** is specifically designed to complete the assembly of **TF anti-vibration mounts** and provide **secure mechanical retention of the equipment**.

Combined with the elastomer elements of the TF mount, it helps create a **fail-safe configuration**, limiting excessive movement under tensile and compressive loads in the event of **shock, overload or high dynamic loads**.

Its geometry allows the mount to retain the **elastic deformation required for effective vibration isolation**, while providing a **mechanical safety stop** when movement reaches the specified limits.

Manufactured from **ZnNi-coated steel**, it provides **high corrosion resistance and excellent durability** in mobile and industrial applications operating under demanding conditions.

Drawings

TF 55 Washer

Type	Weight(gr)	Code	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)
TF 55 Washer	48	611056	54	17	3

TF 100 Washer

Type	Weight(gr)	Code	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)
TF 100 Washer	373	606484	105	24,5	5

TF 105 Washer

Type	Weight(gr)	Code	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)
TF 105 Washer	325	611167	110	16,5	5

TF 150 Washer

Type	Weight(gr)	Code	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)
TF 150 Washer	1350	610379	150	24,5	10

TF 180 Washer

Type	Weight(gr)	Code	Ø ext.(mm)	Ø int.(mm)	Thickness(mm)
TF 180 Washer	2440	610383	200	20,5	10

Technical characteristics

Washers should be used, if the rubber surface is not covered with the contact surface
