

TSR 100 x 100

Supporto 100×100 con opzione di livellamento e altezza di 25 o 50 mm per frequenze proprie < 8 Hz. Grande stabilità e prestazioni acustiche.

I **supporti antivibranti** AMC MECANOCAUCHO® TSR utilizzano il materiale antivibrante SYLOMER®, un poliuretano microcellulare che offre un'elevata capacità di isolamento anche con limitati cedimenti statici. Questo elastomero poliuretano è resistente agli oli e può essere utilizzato a temperature comprese tra i -30°C e i +70°C.
