VT-SV

VT-SV | Acoustic hangers designed for vibration isolation of suspended acoustic ceilings and machinery.

AMC-MECANOCAUCHO® VT Hangers range is a range designed for suspension of acoustic ceilings and machinery that requires a very high isolation level.

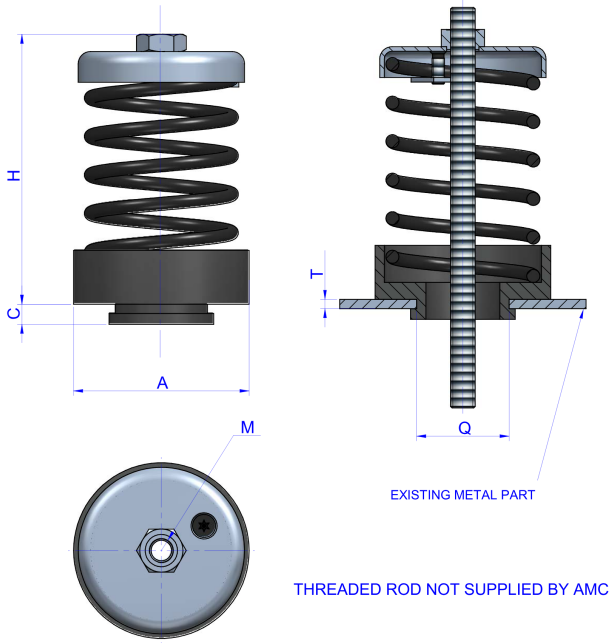

These hangers are made of a high mechanical performance spring and incorporate a rubber bush conceived to avoid the acoustic bridges and the contact of a non aligned screw.

AMC MECANOCAUCHO
Industrialdea Zona A - Pab. 35.
Asteasu E-20159, Gipuzkoa
